

About

Richtone Painting was founded in 1995 to service the whole Twin Cities metro area. Complete customer satisfaction is our trademark and we ensure that every customer is satisfied. We employ only the highest quality, conscientious individuals and reward them for surpassing our customers' expectations.

As a testament to our complete customer satisfaction philosophy, half of our business is from repeat customers and much of the other half is from referrals.

We offer free comprehensive, no obligation consultations. These consultations allow us to provide the most precise estimate for every project. In other words, we write our estimates based only on what needs to be done, which keeps our prices competitive.

When you hire Richtone, you can expect the highest quality service at every stage, including:

Surface preparation

All surfaces we paint need to be prepared in some way. This can be a simple washing with soap and water, a scrapping of the surface, or a total stripping of previous paint.

Repair

Not all surfaces will need repairs. Still, we are equipped and ready to repair any surfaces, including windows and siding.

Masking

We put as much care into where the paint does not go as we do to where it does. It is important to make sure the trim, ceilings, and other surfaces in the immediate painting area are masked to prevent any accidental drips or blobs. It is just as important to make sure furniture, sidewalks, and plans remain paint free as well. Our masking process is thorough and keeps the customer's whole home or business in mind.

Painting

We use high quality Sherwin Williams paint products. We are happy to use the paint products of your choice, so long as they adhere to the standards of our three year written warantee.

Clean up and inspection

Our dedication to professional, courteous service extends to the end of our work and beyond. We will ensure the painted area is as clean or cleaner than when our painters arrived and that the work we have done lives up to your satisfaction. After all, customer satisfaction is our trademark.

We are insured; bonded; and we are proudly certified by the Better Business Bureau, the Community Associations Institute of Minnesota, and the Minnesota Mutli Housing Association.

Free Consultation

Like each home and business, each painting job is different and has its own challenges. Likewise, it is

important that an estimate be thorough. In order to get a thorough estimate, we talk to all our customers face to face and answer any questions they have. By consulting with the you and answering your questions on the spot, we are able to offer you a more precise bid which results in a more competitive price.

During these free, no obligation consultations we determine with you exactly what work needs to be done, covering all interior, exterior, and commercial painting needs as well as window and siding questions. We also provide you with something others may not: an assessment of what does not need to be done.

We are insured; bonded; and we are certified by the Better Business Bureau, the Community Associations Institute of Minnesota, and the Minnesota Mutli Housing Association.
