

At Thomsen Nybeck, we value relationships, results and personalized service for our clients. We spend our money on talent and as single floor in suburban Bloomington, Minnesota. This is more than prudent business planning. By having all of our attorneys from all practice areas in close proximity, we are able to achieve unique, pragmatic solutions through spontaneous collaboration.

The full service nature of our firm guarantees that we have the tools to broadly assess your legal needs. In conjunction with our collaborative approach, we are able to provide efficient solutions to a spectrum of legal matters.

### **The One Floor Philosophy**

We have a unique opinion on what provides value in a law firm. Our entire firm is housed on one floor of a suburban office building in Bloomington, Minnesota, because we believe the decadent trappings of a traditional law firm distract attention, time, and money away from what makes any law firm truly great: the talent. Our experience, creativity, and honesty are what makes us a great law firm. We simply need our modest suburban office to provide our high quality legal services.

That is not where the One Floor Philosophy ends. By housing all of our attorneys on the same floor, we facilitate serendipitous collaboration and inspiration. Each practice area comes at the law with a different perspective, and those different perspectives do not often meet downtown. We pride ourselves on our creativity and ingenuity; being in the same place is integral to that.

### **Relationships Mean Results**

Our focus is on our clients. Now, every law firm says this, and generally they all mean it. But what sets apart from other law firms is how deep our client focus goes. We only interested in providing the best legal counsel for the client sitting in front of us, not the next client or the client with the bigger pocket book. When you retain our services, you will receive the full attention of a deeply committed partner.

### **Full Service Law Firm**

We provide an exceptional array of legal services. The breadth and depth of our legal offerings mean that we can form long-term relationships with our clients by catering to every legal situation and need. You may not require many of our services today, but they are here when you need them.

#### **Business law**

Creation of business entities, whether a Limited Liability Company (LLC), S corporation, C corporation, partnership, professional association or other form.

#### **Real Estate law**

Our lawyers represent both lenders and borrowers in real estate and commercial financing. Our real estate practice runs the gamut from commercial and residential transactions, to [real estate broker representation](#), to the varying needs of land developers and those involved in [wind energy](#) projects.

#### **Litigation**

Litigation is a centerpiece of Thomsen Nybeck's practice. The litigation team constitutes a substantial practice group that brings service and commitment to each client's pursuit of an end through any of the myriad of forums. From construction defects to insurance litigation to employment disputes, we bring a litigator's perspective to all of our practice areas.

#### **Personal Legal Services**

We provide services for criminal law, estate planning, family law, property insurance claims, and personal injury.
